

Low alloy high strength steel billet and Tube blank billet

Name	Steel grade	Diameter	Carried standard	Application
Low-alloyed high strength steel billet	Q345B、Q345C、Q345D、Q345E、Q420B等	150 × 150, 200 × 200, φ 380, φ 450, φ 500, φ 600φ 700、φ 800	Corresponding international standard Technical specification	Structural and forged steel for Wind power generation flange; hydraulic piston rod etc.
Tube blank billet	10、15、20、30、35、45、25Mn 、30Mn、40Mn、45Mn、20A、25Mn2V、Q345、16Mn、12Mn、14Mn、16MnG	φ 280 φ 330 φ 380 φ 450 φ 500 φ 600 φ 700 φ 800	GB/T3077、GB/T 699、GB/T1591 、YB/T 8163、GB/T8479、Corresponding international standard Technical specification	Seamless steel tubes for Structure, fluid delivery, high-pressure chemical fertilizer equipments; vessel, equipment, piping fittings and machinery structure.

Produced by Jiangsu Shagang Group Huaigang Special steel Co., Ltd
