

Continuous casted round steel billet and square billet

Name	Steel designation	Diameter	Carried standard	Application
Continuous casted round steel billet	Low-alloyed high strength steel; Prime carbon structural steel; Alloy structural steel; High-pressure boiler tube blank; Anchor chain steel; Oil well casing and line pipe steel billet; Land and ocean petroleum and natural gas exploitation steel billet; Petroleum soaking tube steel billet; Low-alloyed tool and dies steel billet; CCM round billet of Spring steel, Bearing steel, Harden steel and Pinion steel	φ150 φ160 φ180 φ210 φ250 φ280 φ310 φ330 φ380 φ450 φ500 φ600 φ700 φ800	GB/T 1591-2008、 GB/T 699-1999、 GB/T 3077-1999、 GB/T18669-2002、 GB/T 1299-2000、 GB/T 18254-2002 Corresponding international standard Technical specification	Large-scaled forgings, anchor chain forgings, oil casing, pipeline, air cylinder pipe and oil well facilities, cold-worked/hot-worked die set, plastic die and various forged roller
square billet	Low-alloyed high strength steel; prime carbon structural steel; alloy structural steel; high-pressure boiler tube blank; anchor chain steel; Oil well casing and line pipe steel billet; land and ocean petroleum and natural gas exploitation steel	150×150 180×180 140×200 200×200-	National or professional standard, internal controlled standard Technical specification	As be rolled to bars, wires, strips in various specifications or hot-forged processing

	billet; petroleum soaking tube steel billet; low-alloyed tool and dies steel billet; CCM square billet of Spring steel, bearing steel, harden steel and pinion steel
